Has Decided to Visit Salt Lake During Coming Tour of United States.

Ex-Gov. Arthur L. Thomas, presient of the Cambrian society, is in eccipt of a letter from Dewey Michael, agent for the Madam Hughes Thomas Welsh Ladies' chorus, Cardiff, Wales, stating that the chorus had decided to make another tour of the United States and Canada and would include Salt Lake in their list of cities to be visited. The tour will begin next winter and Mr. Michael is anxious to have his singers appear here in concert at a his singers appear here in concert at a. time to be agreed upon later. The choir is said to be a superb one, having to its credit an appearance before the late King Edward and Queen Alexandra, and other noteables of Great Britain. On the occasion of the choir's singing before the royal family in London, in April 1908, King Edward addressed the members as follows: "Well, you Welsh people are passionately fond of music, and you have beautiful voices. I have certainly enjoyed your choir immensely. I must congratulate you, Madam Thomas, and your choir on your excellent performour choir on your excellent perform-ice." No definite action has been taken yet regarding the choir's en-gagement for a concert here; but it is being considered by the local Cam-brians with more or less favor.

He says: "We would like to know if there is any truth in the published reports that there is a strong likelihood of a choir from your city coming over to the truth in the published reports that there is a strong likelihood of a choir from your city coming over to the Carmarthen National Eisteddfod. If they are I have no doubt but they would want to give a series of concerts in Wales and elsewhere before returning to the United States. It is about 17 years, I should imagine, since Prof. Stephens and his chorus of true ladies and gentlemen visited us, but the people who were fortunate enough to hear them at that time are will taiking about these enough to hear them at that time ar still talking about them and singing their praises as though it were a recen

The genial professor intends going to Wales himself and he is anxious to find out what "boat" the Utah people will go on, so that he may secure passage on the same steamer "and be one of you on sea and land."

The opening prayer was offered by former Bishop Isaac Barton. President John Henry Smith, the first speaker, said he regarded it as a very great privilege to stand around the bier of William Asper, for whom he had al-ways had the highest possible regard. He referred in feeling terms to his in-tense spirituality, and his reliability and uprightness in all things. His demise was a loss to the state and the Church as well as his family, whom he exhorted to exemplify his good deeds in their lives.

President Joseph F. Smith endorsed

what had been said, and stated that all who knew William Asper could bear the same testimony. His regret in his death was that he is needed here. Such examples of honesty and devo-tion to truth are beneficial to those who surround them. It was also said that William Asper had enjoyed the bless-William Asper had enjoyed the blessings of God without measure. President Smith then referred to the ties of family through the gospel and the faith William Asper had in those teachings, and closed by feelingly exhorting the children to follow in his footsteps.

George F. Richards of the council of twelve, spoke of the sacrifice and seir abnegation of William Asper, and his faithfulness in all things and encourfaithfulness in ail things and encouraged the mourners not to mourn to excess that such a good man had gone to his reward, which was sure.

Nephi L. Morris, president of Salt Lake stake, said he was not entirely reconciled in his feelings to the sudden departure of William Asper. His associations with him in the stake had been close and he always found him sound in judgment and desirous of promoting the welfare of the organizations of the stake. He has given a great deal to the officers of the stake, and to others. All his life he faithfulness in all things and encou He was a con both aggressive has been a builder. Bishop Widtsoe spoke of the sup-port William Asper had been to the ward. He also referred to his childlike faith and extended sympathy to the benediction was offered by Patriarch Angus M. Cannon. At the grave the quartet sang "Rest." The grave was dedicated by Elder George F. Rich-

WILL SAVE STEPS.

With New Apparatus Weather Man Won't Need to Climb Roof.

Section Director Thiessen of the ocal weather office has filed a re quest with the department at Wash ington for what is known as a tele-thermoscope—for installation in his office. This instrument is of an electri-cal character to be connected by wire with the thermometers in the box on the skeleton support above the Bos-ton block, so that the thermometers there can be read down stairs without any one being obliged to mount the roof and the support to read them. The mechanism operates on the principle of resistance, the higher the thermometer the greater the resistance to the current in the wire connecting with the office register. From this latter the pressure is read and translated back into thermometric units. The weather officials here are recoverity true to fice the resistance of the r frequently rung up for information about the temperature, and it has be-come monotonous to be obliged to chase up in the roof and climb that ladder in response to every request.
